Our Story

Founder Dave Katz created his recipe and brand after visiting more than 40 distilleries around Russia in the early 2000s. Zyr's quality is dedicated to the collective of people who shared their wisdom and experience. As a result of Russia's war, Dave began working with American experts to recreate Zyr. Areas of focus included tweaking Zyr's mash bill, enzyme and yeast selection, filtering and distilling. It's good to be home!

Finest American Quality

- A blend of organic winter wheat & rye, harvested @ www.janiesfarm.com
- Water sourced from the Sankoty Aquifer in Illinois and then run through
- Reverse Osmosis filters
- Dave worked with Chris Ober, owner & head distiller of Black Band Distillery to replicate Zyr on his 5,000 liter hybrid still
- Zyr flows through extensive carbon and polishing filters to round out the flavor and brighten the final Zyr
