## METICULOUSLY DISTILLED

An authentic botanical Gin embodying the harmonious spirit of Japan, featuring unique botanicals that linger in the mouth. Crystal-clear spring water, refined through the bountiful four seasons, ties these ingredients together in a perfect combination.

## NATURAL JAPANESE INGREDIENTS

Tenjaku Gin combines a distillation composed of more than 10 refreshing botanicals with a distinct Japanese essence: fresh, seasonal peaches from the Yamanashi region, sansho pepper, with a unique zest not found in Western spices, yuzu, with its aroma evocative of Japan, and green tea, with its appealing astringent and herbal aroma. Together, these flavors create a botanical gin with one-of-a-kind, authentic taste.

## AN AWARD WINNING GIN

Tenjaku Gin earned 93 points at the New York International Spirits Competition and was awarded the 2022 Japanese Distillery of the Year.
